Andy McKay
Factory Manager
Drayton

McKay Accepts Factory Manager Position at American Crystal

Andy McKay has accepted the position of Factory Manager of the Drayton facility at American Crystal Sugar Company.

In this position, Andy will be responsible for factory operations including production, maintenance, capital projects, engineering, environmental, safety and product quality. He will also ensure maximum efficiency while minimizing costs.

Andy holds a bachelor's degree in Mechanical Engineering from North Dakota State University. He has been with American Crystal since 1999 and was most recently the Production Superintendent at the Drayton factory.

American Crystal is a grower-owned cooperative and the nation's largest beet sugar producer with operating facilities in Moorhead, Crookston and East Grand Forks, Minn.; Hillsboro and Drayton, ND; and Sidney, MT.
